

DSCL-KIT

Tankless Descale Kit

Introducing the latest addition to Noritz's product lineup, DSCL-KIT. This tankless descale kit includes a 5 gallon bucket, submersible pump, and two 5 ft. hoses. It effectively flushes out scale buildup to ensure units operate at maximum efficiency.

Features

Compatible with all Noritz Tankless models

The new Noritz Descale Kit is compatible with our entire line of tankless water heaters.

Maintains longevity and efficiency of your Noritz tankless

Routine maintenance allows your unit to achieve years of optimal performance

Compact and convenient

Store the pump and hoses in the provided bucket after each use.

Simply add a 50/50 solution of calcium, lime, rust remover and water

Using this solution, the Noritz Descale Kit effectively goes to work and removes scale buildup in your tankless.
