SSI NORTIZ

## NCC199CDV (GQ-C3260WZ-FF US) Commercial Condensing Water Heater

### **Specification Sheet**

### Accessories

- Universal Concentric Vent Kit (#PVC-UCVK)
- Low Profile Termination Kit (#PVC-LPT)
- PVC Concentric Termination
  (#PVC-CT)
- 3" Horizontal Hood Termination (#PVT-HL)
- SV Conversion (#SV-CK-2-1)
- Birdscreen (#VT-PVCS)
- Outdoor Vent Cap (#VC-6-1)
- Isolator Valves (#IK-WV-200)
- Pipe Cover (#PC-10S)
- Commercial Wireless Monitor (#NWCC-ADAPTER)
- Quick Connect Cord (#QC-2)
- System Controller: 6-Unit (#SC-401-6M)
- System Controller: 12-unit (#SCU-401-12M)
- System Controller: 24-unit (#SC-401-24M)
- Neutralizer for 1-unit (#NC-1S)
- Neutralizer for up to 16 unit (#NT-20A)

#### Standard Input

18,000-199,900 BTUh / 0.5 - 11.1gpm (NCC199CDV)

### Uniform Energy Factor (UEF) 0.96 (NG) / 0.96 (LP)

### Compact Design -

ANSI Z21.10.3/CSA 4.3 certified design that can be wall-mounted indoors or installed outdoors using the optional Vent Cap

### Heat Exchanger -

Manufactured with high quality stainless steel

### Venting Options -

Available in Direct Vent model that can use either 2" or 3" Schedule 40 PVC/CPVC or installed outdoors with Vent Cap.

#### **Common Vent Compatible -**Vent up to 6 units on a single venting system with integrated backflow preventer.

### **Direct Electronic Ignition**

### Wifi Capable

#### Compatible with 1/2" gas pipe -See installation manual

### Multi-System Capability -

Units can be linked together by using either the optional 2-unit Quick Connect or multiunit System Controller for up to 24 units

### Fully Modulating -

BTU input range from 18,000 to 4.8 million BTUh (with 24 unit System) with stable combustion provided by gas venturi and pre-mix burner. Each individual unit 11:1 Turndown Ratio

### Temperature Controls -

Includes remote thermostat that can precisely adjust the output temperature from  $100^\circ\text{F}$  to  $185^\circ\text{F}$ 

### Safety Devices -

Flame Sensor, Overheat Prevention Device, Lightning Protection Device, Freeze Protection, Condensate Overfill

### 10 Year\* Limited Heat Exchanger Warranty for Commecial Use

### 5 Year Limited Parts Warranty & 1 Year Reasonable Labor

### Approvals -

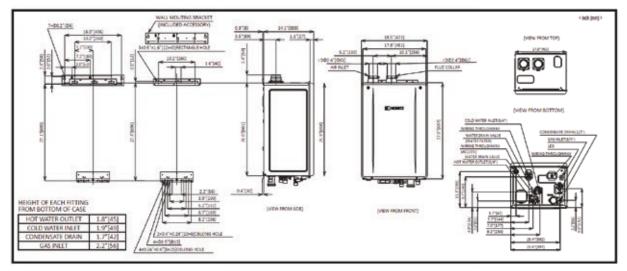

CSA, UPC\*\* , NSF, Low NOx Approved By SCAQMD (Rule 1146.2)

\* Refer to the Noritz Limited Warranty for complete coverage details at Noritz.com \*\* This product complies with California AB 1953 Low Lead Law and section 1417(d) of the Safe Drinking Water Act

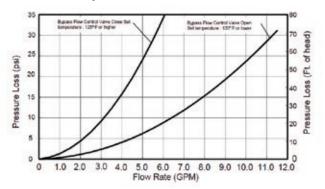

### Dimensions

## CR60 Commercial Rack System

The Noritz Commercial Water Heating System (CR60-CA) is a pre-fabricated racking solution that can be used in flat rooftop, mechanical room, or outdoor applications. For the wall mounted configurations, Commercial Water Heating Systems are available in 2 or 3 Noritz tankless water heater configurations. The floor standing Commercial Water Heating Systems are available with 4, 5 or 6 unit Noritz tankless water heater configurations. For outdoor installation, vent caps (VC-6-1) must be ordered for each individual unit.

The CR60-CA provides a time and labor saving solution when installing multiple Noritz tankless water heaters.

## **Features And Benefits**

- Indoor or outdoor compatible
- Manufactured with highly corrosion-resistant aluminum that can withstand extreme environments
- Cold and hot water lines as well as gas line are 2". Connect multiple racks together for easy scalability
- System controller (SC-401-6M) included and installed for controlling 6 units
- Remote controller display panel included for adjusting temperatures and monitoring system operation
- Condensate manifold included for easy connection and disposal.
- Service isolation valves with 150 PSI pressure relief installed on each unit for easy maintenance.

- Hoist rings provided for easy lifting (floor standing models only)
- Optional floor support (wall hanging models only) included for easy wall installation
- Common vent capable up to 6 units on a single exhaust system without the need for any additional accessories
- Integrated gas sediment traps on each unit
- Fuel gas manifold factory pressure tested at normal (0.5 psi) and high pressure (60 psi)
- Secondary gas shut-off to facilitate gas sediment trap servicing and field pressure testing

## **Common Venting**

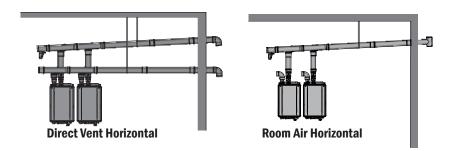

### **Ultimate Flexibility For Vent Configuration**

Figuring out where to safely and efficiently route the exhaust system is one of the biggest hurdles for any HVAC system designer. Noritz Common Venting offers designers the most flexibility to decide how to safely and efficiently route the vent. For room air installations, the combustion air can be drawn from the room environment, further reducing the installation complexity, by requiring only a single penetration for the exhaust.

### Table 1: Vent Diameter and Maximum Equivalent Vent Length

| Model                           |  |                    | Vent Diameter (in.) and Maximum Equivalent Vent Length (feet) |                 |                  |                  |                 |                  |                 |                  |  |
|---------------------------------|--|--------------------|---|-----------------|------------------|------------------|-----------------|------------------|-----------------|------------------|--|
|                                 | Configuration  | Number Of<br>Units | PVC   | or CPVC S       | Schedule 4       | ) Pipe           |                 | PP Vent          |                 |                  |  |
|                                 |  | Units              | 3"  | 4"              | 6"               | 8"               | 3"              | 4"               | 6"              | 8"               |  |
|                                 | Both Direct Vent (DV)<br>and<br>Non-Direct Vent (SV) | 2                  | 18 <sup>.</sup>   | 95 <sup>-</sup> | 2                | 200              | 18 <sup>.</sup> | 110 <sup>°</sup> | 2               | 200              |  |

'The BTU/h input of the unit will be reduced by up to 9%

Note: The sizing method shown in Table 1 is provided for the convenience of the installer. Maximum acceptable vent system static pressure drop is 0.6" W.C.

|                                    |                   | Equivalent Length of Each Elbow (feet) |    |    |    |  |
|------------------------------------|-------------------|--|----|----|----|--|
| Table 2:                           | Diameter of Elbow | 3"                                     | 4" | 6" | 8" |  |
| Equivalent Length<br>of Each Elbow | Length            | 5                                      | 12 | 18 | 20 |  |

## **Multi-Unit System Controller**

- Each CR60 includes a pre-installed system controller (SC-401-6M).
- Each CR60 includes a pre-wired remote controller (RC-9018). Remote can be extended up to 300'
- User selectable temperature from 100-185°F

### **Basic Operation**

The SC-401-6M system controller is used to combine 1-6 Noritz commercial heaters into a single "multi-unit system". The system controller stages units on and off based on hot water demand and rotates their operation to ensure even usage. It also has two additional modes which optimize the system for operation with a recirculation line or storage tank.

## **Unit Staging**

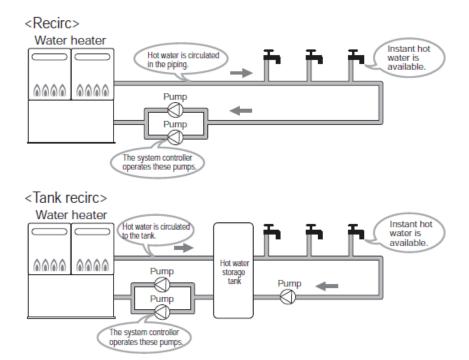

Staging allows the multi-unit system to track hot water demand from the minimum flow rate of a single unit up to the maximum output of several units. When the primary firing heater reaches approximately 50% of its maximum output, the system controller activates the next unit in the system. When both these units reach approximately 50% of their maximum output, a third unit is activated and so on. The SC-401-6M may also be configured to activate two heaters during primary firing to allow for rapid initial hot water demand.

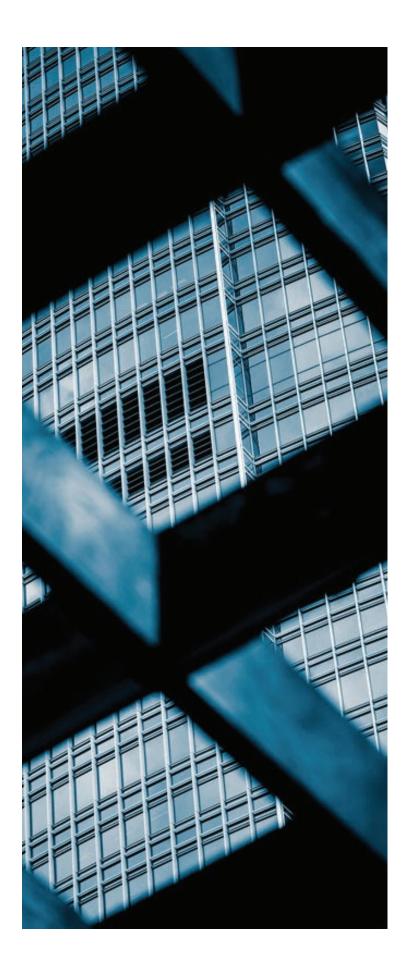

## **Unit Rotation**

The SC-401-6M system controller rotates operation of the primary firing heater every 8 hours of combustion time or up to 24 hours of plug-in time. This helps to ensure even usage of all units.

| Unit 1 | Unit 2 | Unit 3 | Unit 4 | Unit 5 | Unit 6     |
|--------|--------|--------|--------|--------|------------|
| 1st    | 2nd    | 3rd    | 4th    | 5th    | 6th        |
|        |        |        |        |        | • Rotation |
| 6th    | 1st    | 2nd    | 3rd    | 4th    | 5th        |
|        |        |        | _      |        | • Rotation |
| 5th    | 6th    | 1st    | 2nd    | 3rd    | 4th        |
|        |        |        | -      |        | • Rotation |
| 4th    | 5th    | 6th    | 1st    | 2nd    | 3rd        |

The SC-401-6M allows the user to select two additional system types: "Recirc" and "Tank Recirc". These settings optimize performance with recirculation and storage tank systems, and allow the system controller to operate one or two pumps.

### **Included Accessories**

### Isolator Valve Kit

Lead Free 3/4" threaded iso valve kit with male 500K Btuh Pressure Relief Valve

### SC-#

System Controller

SC-401-6M System controller for up to 6 units for the NCC199, NCC300 & NC380 series.

### **Optional Accessories**

### **NT20A**

Condensate Neutralizer Kit (External)

NT20A<sup>1</sup> Commercial condensate neutralizer kit for NC199, NCC199CDV, and NCC300 series <sup>1</sup>NT20A for commercial only

## System Controller

- SCU-401-12M-WIFI System controller bundle w/ NWCC adapter and System controller for NCC199CDV and NCC300 (12 units)
- SCU-401-24M-WIFI System controller bundle w/ NWCC Adapter and System Controller for NCC199CDV (24 units)

### VC-6-1 Outdoor Vent Cap

U VC-6-1 Outdoor vent cap for EZ, NRCR, and CDV models.

### SV-CK-2-1

- DV to SV Conversion Kit
- SV-CK-2-1 2" PVC (EZ / CDV)

### PVC-#CT

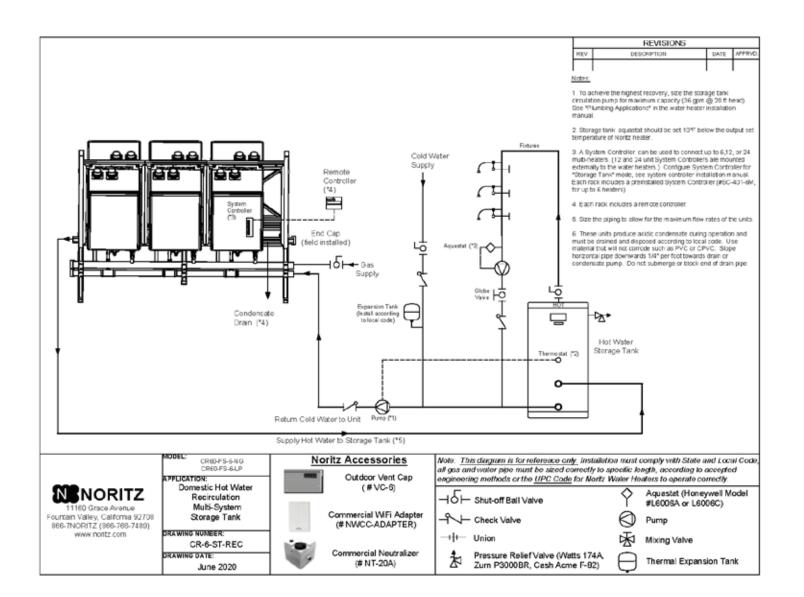

PVC Concentric Horizontal Termination Kit

- PVC-2CT 2" PVC Concentric Termination
- PVC-3CT
  3" PVC Concentric Termination

### **PRC-1** Plastic Rain Cap

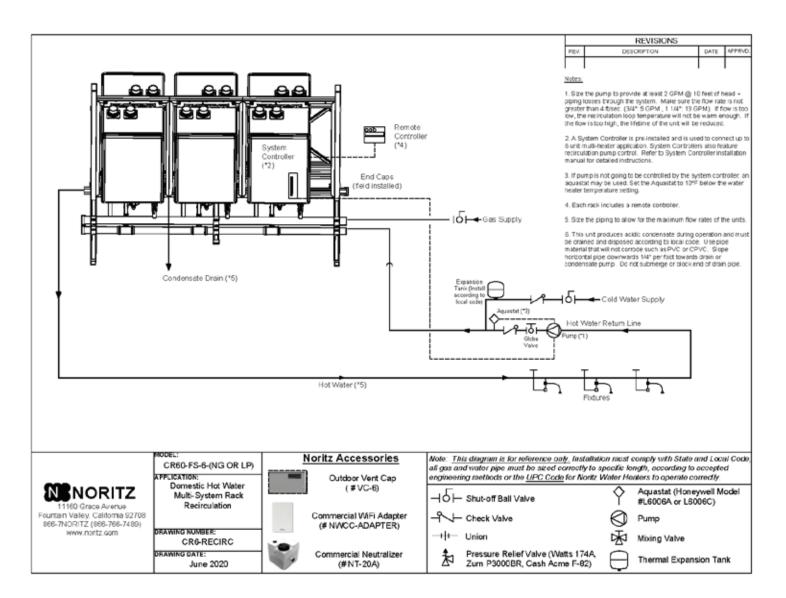

- PRC-1
- 2" (EZ98, EZ111, NCC199CDV)
- 3" (For NRC111, NCC199, NRC98, NRC71, NRC66, NRCB, & NCC199CDV)
- 4" (For NRC111, NCC199, NRC98, NCC300)
